

## Bargains Among the Best Flannels--

--AT--

PERRY'S.

A special sale of Flannels that will differ from most special sales in that there are no short lengths and so-called "seconds." But full and complete lines of such choice Flannels as you have learned to look for at the "Greater Store."

Flannel is such a household utility, and at this season such a necessity--that to have the opportunity to buy at these prices at a time when you have the buying to do amounts to more of a bargain than was ever offered before.

They are the best makes of Flannels, and represent about all the makes that are best--giving you the choice of every sort and kind that you are at all likely to want. Remember, there is enough to give you as many yards as you require--you will not have to suit your needs to the quantity. But there will be an army of buyers besieging these counters, so it is best not to hold back--but get in the front rank--first thing tomorrow morning--when the first cutting at the cut prices will be done.

A lot of the best grade of Printed French Flannels in dark, medium and light shades, suitable for waists, waists and waists, in large variety of patterns to select from. These are the Flannels that have been selling all the season at 50c a yard because they are worth 50c. You may take your choice of any of the plain and fancy effects at

## The Greatest Shoe Sale Ever Held

is receiving the greatest response ever known in Washington. We're as busy as we can be.

We've closed out the last of the stocks on hand of the four leading makers of Men's and Boys' Shoes--Hanan and three others.

They're identically the same qualities and styles that we carry in regular stock--but the prices--as you'll see--are BARELY HALF the originals. It's really below cost selling. But the manufacturers gave us the opportunity--and we never hesitate when it'll do you good.

They're all of this season's popular styles--made of selected stock--and the reputation of these manufacturers is in every pair. Judge them by what they were intended to sell for--not by the "penny-prices" they're offered for--
